

A Remarkable Snowmobiling Season in Ontario Comes to a Close

19+ week snowmobiling season (December 6, 2025 - April 23, 2026), with volunteers delivering a peak of 28,000+ KMs of available trails. It doesn't get much better than this!

Operators logged 83,000+ grooming hours to meet high traffic demands and deliver unforgettable experiences. Frequent storms, overnight shifts, and long hours in the seat did not deter them!

Generous landowners provided access to tens of thousands of parcels of land; without them, our system does not exist, and Ontario's winter economy does not thrive.

86,000+ Seasonal and Classic permits sold, providing the funding needed for our Club Volunteers to do what they do, and what a job they did!

Incredible support from the Ontario Government and Law Enforcement partners, ensuring our trails are safe and communities connected.

Said simply, thank you! This was the season snowmobilers and volunteers dream of and deserve. From start to finish, Mother Nature cooperated, snowmobilers piled on the KMs, and communities benefited. World-class riding opportunities were abundant, and all corners of Ontario joined the party. This is what snowmobiling in Ontario is all about.

Park your sleds, rest your thumbs, pull out your summer toys, and enjoy the off-season - We'll see you on October 1!
